SK-3X1 IN 3D

The campus from above, the cable that connects the power block, and the control room that runs it.

The SK-3X1 campus: 3x1 combined cycle, carbon capture, modular yard and the BTM campus

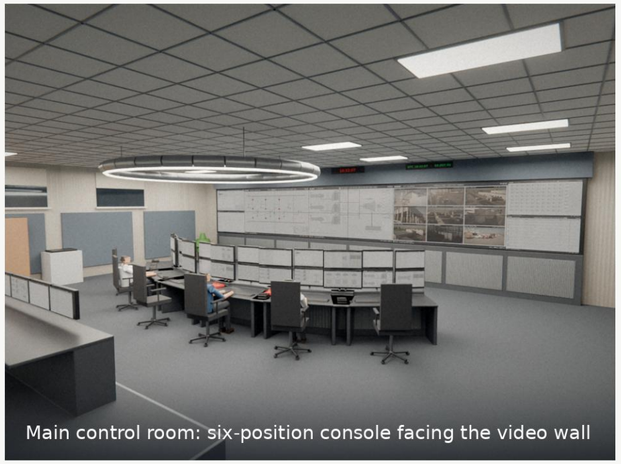

Long lens from the west road: carbon capture and the HRSG stacks

The three HRSG stacks from beside the absorbers

ARMOR-X and MV-105 in the R1 tray, HRSG 1 ahead

Main pipe and cable rack beside the HRSG stacks

Cable legends in the hall tray, HRSG 2 beyond

Main control room: six-position console facing the video wall

Rendered from the SK-3X1 3D model (Rev 14). Conceptual illustration: not engineered.
