

MODULAR POWER

Generation packages, generator sets, and fuel-cell power.

01

Generation packages

Eight 18-cylinder gas engines (RICE) in one hall with SCR stacks, plus two LM6000-class simple-cycle units.

02

Generator sets

Two black-start gensets with their switchgear; eight containerized and trailer gensets on the portable pad.

03

Fuel-cell power

Twelve solid-oxide fuel-cell modules and six 1 MW microturbines, inverters and the 480 V : 13.8 kV step-up.

Rendered from the SK-3X1 3D model (modular yard, north block). Surrounding plant omitted for clarity. Conceptual illustration: not engineered.
